

Dear Sir/ Madam,

We have a pleasure to contact you on behalf of the **Thalassotherapy Crikvenica- Special Hospital for Medical Rehabilitation of Primorje-Gorski Kotar County**, engaged into preparation of the project proposal for the First Call for Proposals of the INTERREG EUROPE programme.

Thalassotherapy Crikvenica is a medical center with a century-old tradition of health care in the application of thalassotherapy treatment for health prevention, medically oriented rest and rehabilitation. The position on the bay of crystal clear sea, beach and 6 km long promenade in a park of Mediterranean greenery, is an ideal for thalassotherapy treatment, recovery and relaxation. One hundred years ago, Crikvenica was recognized by the first European visitors, who, in search of a place of rest and recovery, began to visit it in large numbers, mostly due to extremely favorable climate. Today, Thalassotherapy is a modern medical institution, which connects the principles of thalassotherapy with the achievements of modern medicine, which achieves exceptional results in the treatment of diseases of the locomotor system and respiratory organs in children, adults and the elderly. Please find additional information on: <https://thalasso-ck.hr/> .

We use this opportunity to contact you with the proposal for cooperation on the project Thalassotherapy Crikvenica as the main applicant plans to submit to the First Call for Proposals of **INTERREG EUROPE programme**. The deadline for the submission of project proposals to the First call is 31 May 2022. Please find more information on the Call for proposals here: <https://www.interregeurope.eu/next-call-for-projects> .

We would like to take this opportunity to propose the cooperation on the project named: **HEALTHY CHAIN OF GOOD HABITS- Healthy Child-Healthy Family** - adoption of healthy habits through play and fun in order to prevent obesity and chronic joint diseases in children. Please find the project fiche with additional information about project proposal attached. We will be pleased to have distinguished public organization in the field of health, healthcare, education and healthy living, preferably from Spain, Greece, Malta, Denmark, Slovenia, Ireland and Norway (but not mandatory) as a partner in the project. Additional information about project proposal can be accessed via link: <https://www.interregeurope.eu/project-ideas/healthy-chain-of-good-habits-healthy-child-healthy-family-adoption-of-healthy-habits> .

We would like to thank you in advance for cooperation and we remain at your disposal for any further information concerning this proposal for cooperation. If you're interested in cooperation, please do not hesitate to **contact Mrs. Stanislava Laginja, M.D., dermatology and venerology specialist**, Thalassotherapy Crikvenica- Special Hospital for Medical Rehabilitation of Primorje-Gorski Kotar County, Republic of Croatia (s.laginja@gmail.com).

Kind regards,

Srđan Kerčević
