

Asunto: Institute for Physical Planning from Croatia - partner search

Dear colleagues,

Institute for Physical Planning of Primorje Gorski-Kotar County is searching for project partners to cooperate in the framework of the 1st call of Interreg Europe programme. Please find below information about their project preferences.

Institute for Physical Planning of Primorje Gorski-Kotar County as policy responsible authority for implementation of physical planning at regional level would like to share and gain experience in the field of application of digital technologies, services and modules in course of increase the transparency, efficiency and adaptive component of the physical planning process; public participation and the inclusion of green, blue, sustainable and circular practices in physical planning.

Physical / spatial planning process is extremely dependent on digital services and tools which enables exchange of data and information with all relevant sectors. Also, physical planning process has to be participative and integrative and include all expert and interested public for which transparency, approachability and user-friendly services should be available.

Improvement of physical planning process through digitalization also contributes the implementation of green, blue and circular practices as well as climate change adaptation approaches at local and regional level as well as sets the precondition for sustainable space management.

Please, send this information, to relevant PPs from your countries and if interested, they can contact:
